

## **Friedrich Miescher Institute for Biomedical Research**

The Friedrich Miescher Institute, as part of the Novartis Research Foundation, is devoted to fundamental biomedical research and is situated in Basel, Switzerland ([www.fmi.ch](http://www.fmi.ch)). To support and strengthen its research groups the FMI immediately seeks a highly qualified

### **Proteomics Specialist**

to join the protein analysis facility. In this function you will support different proteomics projects, implement and develop new methods and train the scientists in sample preparation, MS analysis and data mining. A broad understanding of biological systems for the application of these technologies would be advantageous.

The ideal candidate has a University degree in biochemistry, chemistry or molecular biology and a thorough training and experience in proteomics or protein chemistry. Profound knowledge of protein and peptide separation technologies and micro scale sample manipulation is essential. Experience in identification and quantification of proteins by LC-ESI-MSMS and LC-MALDI-MSMS is highly desirable.

Excellent computer, communication and organizational skills are necessary in addition to the ability to work as a team member.

Have we raised your interest? If you would like to join a dynamic, outstanding research institute, we look forward to receiving your application. Please send your full particulars to [human.resources@fmi.ch](mailto:human.resources@fmi.ch) or by post to:

Human Resources  
Friedrich Miescher Institute  
Maulbeerstrasse 66  
4058 Basel, Switzerland.

Please mark your application with the reference "Protein Analysis".

For further information please contact [Daniel.Hess@fmi.ch](mailto:Daniel.Hess@fmi.ch).

The closing date for applications is 27 June 2008 or till filled.
