

Universitetet i Bergen Molekylærbiologisk institutt

University of Bergen is a city university. Parts of the campus are in fact situated in the town centre. We have about 15.000 students and nearly 3.200 employees. UiB is renowned for its research which holds a high European standard and we have several Centres of Excellence (CoE). The University of Bergen has a strong international profile which entails close co-operation with universities all over the world.

Faculty of Mathematics and Natural Science

Research Fellow at Department of Molecular Biology

At the Department of Molecular Biology a 4-year position as Research Fellow is available within the field of molecular biology. The position will be linked to the project: «Role of phosphorylation in regulation of redox-mediated events in apoptotic cell death».

Applicants must have achieved a master's degree or equivalent in molecular biology, or have submitted their master thesis for assessment by the application deadline. It is a prerequisite, however, that the examination results are out within 4 weeks of the closing date for submitting the master thesis.

Applicants should have a strong background in molecular cell biology and protein chemistry. Experience with mass spectrometry for proteomics is preferable.

The research fellow must take part in the University's approved PhD programme leading to the degree within a time limit of 3 years. Hence, applicants must meet the formal admission requirements for the PhD programme. Application for admission to the PhD programme, incl. a project plan outline for the training module will be worked out in collaboration with the research group in question.

In total, the fellowship period is 4 years. For positions with a 4-year duration 25 pct of the period will be designated to teaching and/or administrative duties. The fellowship period may be reduced if the successful applicant has held previous employment as research fellow.

The teaching language will normally be Norwegian, but may also be English.

For further information please contact Ass. Professor Kari Espolin Fladmark by phone (47) 55584514 e-mail Kari.Fladmark@mbi.uib.no

Starting salaries at salary level 43 (code 1017/LR20.1) on the government salary scale; currently NOK 325,800 gross p.a.; following ordinary meriting regulations (range 43/47).

State employment shall reflect the multiplicity of the population at large to the highest possible degree. The University of Bergen has therefore adopted a personnel policy objective to ensure that we achieve a balanced age and sex composition and the recruitment of persons of various ethnic backgrounds. Persons of different ethnic backgrounds are therefore encouraged to apply for the position.

The University of Bergen applies the principles of public openness when recruiting staff to scientific positions.

The successful applicant must comply with the guidelines that apply to the position at any time.

Application and CV should be sent via the link «Apply for this position».

Copies of diplomas/transcripts (bachelor and master) and testimonials as well as scientific works including a list of these (all in 3 copies/sorted in 3 identical bundles) should be sent to Department of Molecular Biology, The University of Bergen, PO Box 7803, NO-5020 Bergen, Norway.

Applications sent by e-mail will not be considered.

Closing date for applications: 1 Marc 2008
